Competition Rules:

1. Each week, simply pick a team playing that week to win – if your team wins, you go through; lose or draw and you're out.
2. You can only pick a team to win once so be tactical about who you pick and when.
3. If your team's game is postponed you are automatically put through to the next round.
4. If more than one participant remains at the end, the accumulated 'scored for' of their selected teams will determine the winner. This also applies if during the competition the remaining players are knocked out in the same week, then the player with the highest score will be the winner.
5. If the remaining players 'scored for' points are equal then there will be joint winners.
6. All selections must be in by January 25th 2019.
